Application: Perspectives on Global Issues Workshop – Sustainable Cities and Communities

Purpose: The purpose of the workshop is to expand faculty understanding of and engagement in broad topical policy debates and discussions occurring in the world today, thereby providing them with an additional foundation for bringing these themes back to the campuses of KSU and extending the engagement to our students and surrounding communities. This workshop also ties into our new interdisciplinary “Research with Relevance” theme of “Sustainable and Safe Communities.” This year’s topic will focus on “Sustainable Cities and Communities” based on the UN 2030 Sustainable Development Goals. These goals “… are a call for action by all countries – poor, rich and middle-income – to promote prosperity while protecting the planet. They recognize that ending poverty must go hand-in-hand with strategies that build economic growth and addresses a range of social needs including education, health, social protection, and job opportunities, while tackling climate change and environmental protection.” See the “Call for Applications” on the “Perspective on Global Issues Workshop” section of the Faculty Affairs website for more details.

Eligibility: Any full-time permanent teaching faculty. Administrators with faculty rank are ineligible for faculty awards (i.e., receives a Contract for Faculty Ranked Administrators). In other words, only faculty members who have been issued a fiscal or academic year Tenured Personnel or Non-Tenured Personnel contract are eligible for this award. Those selected must be available to attend the entire workshop and must attend a post-workshop meeting towards the end of September 2022.
